Pittsburgh Council American Youth Hostels. 6300 Fifth Ave. Pittsburgh 32 Pa.

SECOND ANNUAL 12-HOUR BICYCLE RACE

As a result of very favorable publicity in a national bicycling magazine, it has been announced that this council will sponsor a Second Annual 12-Hour Bicycle Race. Prominent bicycle racers from other parts of the country are planning to compete.

NATIONAL BOARD & WORKSHOP MEETINGS

On the weekend of April 20, a group of hostelers from Pittsburgh drove to Washington, D.C. to attend the National Workshop Meetings and to see the sights of Washington. Betty Bierer, Chairman of the Pittsburgh Council, also attended the National Board Meeting which was held at the same time. About sixteen hostelers from the Pittsburgh area attended.

NO MONDAY NIGHT BIKE RIDES
July 7, 14 or 21.

#1 - CALEDONIA STATE PARK - MEM. DAY

Twenty-seven hostelers from Pittsburgh spent the Memorial Day week-end at Caledonia State Park near Gettysburg. We were joined by Bob Herman and four of his friends from Baltimore. There were a lot of new people along, including an Englishman from South Africa and his friend from Finland, who are exchange students. One of Bob's friends was from Holland, which made it seem like an international hostel trip. There was time for hiking along the Appalachian Trail, swimming in cool mountain streams, folk singing around a campfire, sightseeing in Gettysburg, and lots of eating. Thanks to Therese O'Callaghan, our leader, we had a wonderful time. R. T.

ODE TO A DOG

- O Dog so noble, so faithful, so true.
- O Dog so helpful, so trustworthy too.
- O Dog so playful out there on the pike-
- O doggone it Dog, stop chasing my bike!

NO HOSTELING

Did you ever consider the loss it would be - If hosteling were unknown to you and to me? - No hosteling - then travel is merely a game - A contest to see the most places of fame. - And the rushing of travel becomes so demanding - That though places are seen there is no understanding. While hosteling, travel has so much more meaning. Than just seeing Grand Canyon or the tower that's leaning. - You'll learn more about people, their customs and home - From the group that you're with than the places you roam. - For hiking and cycling through all kinds of weather - Is a wonderful way to bring people together. - If hosteling has proven so worthwhile to you - Why not get your friends to be hostelers too?

REMEMBER AYH OPEN HOUSE every Thursday. Starting the middle of August the programs will include slides of this year's extended trips.

#2 - WEST VIRGINIA - MEM. DAY

Ten Pittsburghers, two Ohioans and three West Virginians met at Morgantown early Friday morning and drove 70 miles to Gardiner's Knob in Monongalia National Forest. Here we hiked eight miles through virgin spruce forest to climb the fire tower.

Saturday we drove 60 miles to the Smoke Hole area, and after climbing up the mountain, explored a cave inhabited by big-eared bats. Supper was eaten by carbide light.

Sunday we saw entrancing scenery in the mountains of the park. We had lunch at Blaskwater Falls, where our West Virginia guides left us. G.F.
